

Safe Schools "anti-bullying" program

18 March 2016

Dear Senator Day,

I expect the Liberal Party to de-fund and remove, root and branch, the Safe Schools "anti-bullying" program.

Most people I talk to are passionately against it for the following reasons:

- there is a secret agenda
- it will confuse and harm children
- it will help the continuing campaign of deception and intimidation against those respecting traditional values
- it fails to adequately inform and consult with parents
- it was never a part of election policy so there is no mandate for it
- it is a blatant exercise in social engineering
- Parliament has better things to do than pandering all the time to the vocal, militant views of 1.5% of the population

Should the Liberal Party not make a clear stand against this program, or anything else like it. it will provoke a strong electoral backlash.

Yours faithfully

Bill Wright
